

composition.

4. (Twice Amended) The composition according to Claim 1, and further comprising a cosmetically acceptable medium including water or water and at least one organic solvent selected from the group consisting of hydrophilic organic solvents, lipophilic organic solvents, amphiphilic organic solvents, and mixtures thereof.

B 5. (Amended) The composition according to Claim 4, wherein the organic solvent is selected from the group consisting of monofunctional or polyfunctional alcohols, oxyethylenated polyethylene glycols, polypropylene glycol esters, sorbitol and derivatives thereof, dialkyl isosorbides, glycol ethers, polypropylene glycol ethers, and fatty esters.

6. (Twice Amended) The composition according to Claim 4, wherein the organic solvent is present in an amount of 5% to 98% of the total weight of the composition.

7. (Twice Amended) The composition according to Claim 1, and further comprising at least one fatty phase.

8. (Amended) The composition according to Claim 7, wherein the fatty phase is present in an amount of 50% or less of the total weight of the composition.

9. (Twice Amended) The composition according to Claim 1, and further comprising at least one additive selected from the

group consisting of: conventional hydrophilic or lipophilic gelling agents; conventional hydrophilic or lipophilic thickeners; hydrophilic or lipophilic active agents; preserving agents; antioxidants; fragrances; emulsifiers; moisturizers; pigmenting agents; depigmenting agents; keratolytic agents; vitamins; emollients; sequestering agents; surfactants; polymers; acidifying or basifying agents; fillers; free-radical scavengers; ceramides; sunscreens; insect repellents; slimming agents; dyestuffs; bactericides; and antidandruff agents.

B1 10. (Twice Amended) The composition according to Claim 1, wherein the composition is an aqueous solution, an aqueous-alcoholic solution, an oily solution, an oil-in-water emulsion, a water-in-oil emulsion, a multiple emulsion, an aqueous gel, an oily gel, a liquid anhydrous product, a pasty anhydrous product, a solid anhydrous product, or a dispersion of oil in an aqueous phase using spherules.

11. (Twice Amended) The composition according to Claim 1, wherein the composition has an appearance of a white cream, a colored cream, an ointment, a milk, a lotion, a serum, a paste, a mousse, or a solid.

12. (Twice Amended) The composition according to Claim 1, wherein the composition has a pH of between 3 and 8.

Sub 13. (Amended) A method for attenuating, reducing or stopping the loss of hair which comprises using a non-prostanoic

agonist of prostaglandin EP-2, a non-prostanoic agonist of prostaglandin EP-4, or a combination thereof.

14. (Amended) A method for attenuating, reducing or stopping the loss of hair which comprises using the composition of Claim 1.

B1 15. (Amended) A cosmetic treatment process for attenuating, reducing or stopping the loss of hair, which comprises applying to the hair a cosmetically effective amount of a non-prostanoic agonist of a prostaglandin EP-2 receptor, a non-prostanoic agonist of a prostaglandin EP-4 receptor, or a combination thereof.

16. (Twice Amended) A cosmetic treatment process for attenuating, reducing or stopping the loss of hair, which comprises applying to the hair the cosmetic composition of Claim 1.

---

Please add the following claims:

---

17. (New) The composition according to Claim 1, wherein the composition comprises from 0.01% to 5% of the agonist by weight relative to the weight of the composition.

B2 18. (New) The composition according to Claim 1, and further comprising from 0.1% to 5% of a prostaglandin EP-3 receptor antagonist by weight relative to the weight of the composition.

19. (New) The method according to claim 13, wherein the hair is head hair.
